# Totem keymap reference (cont.)

· falls through to Base      ■ held / gesture key

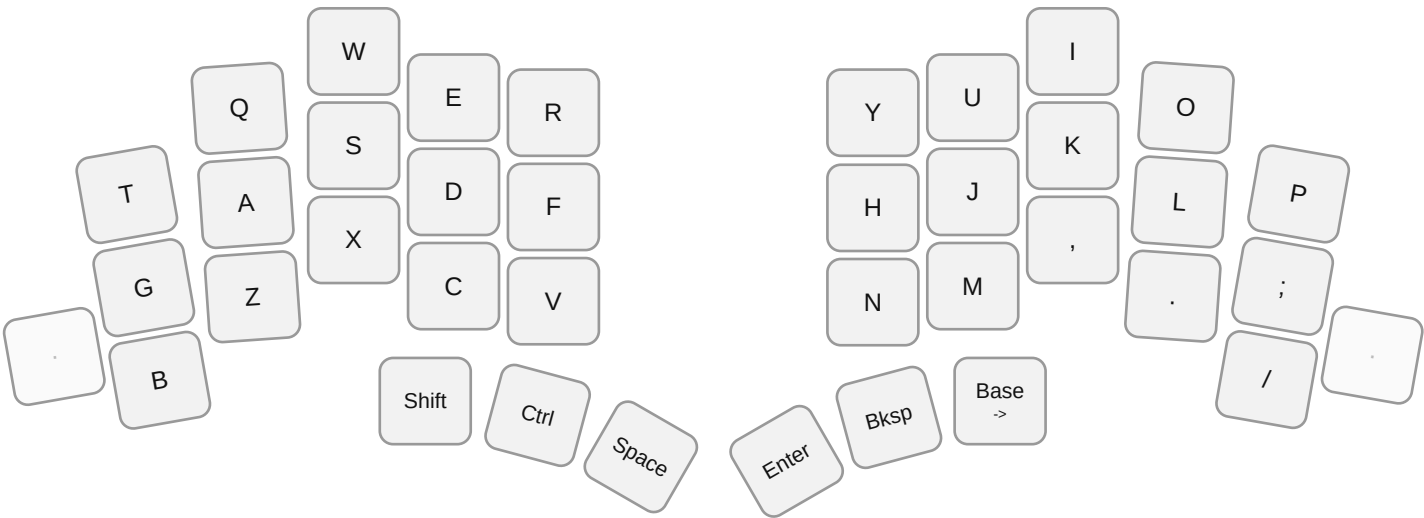

## Functions

Hold the right thumb's backslash key

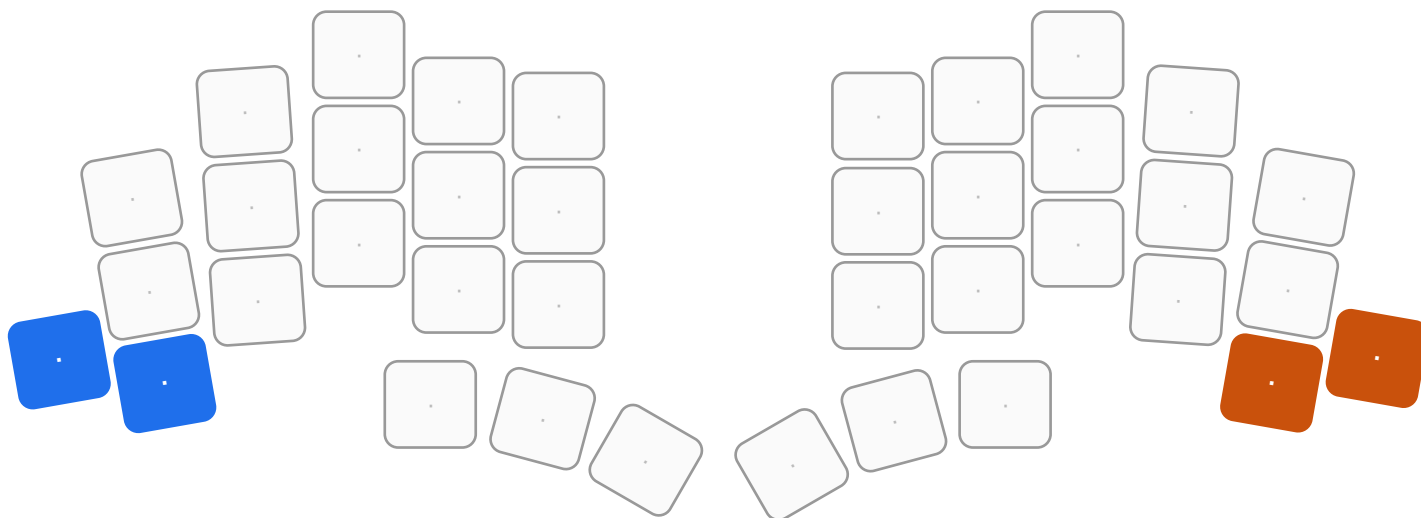

## Game

Toggled from the Functions layer's Game key, not held

# Sleep gesture

Press a pair together, then let go — each half sleeps independently.  
Any keypress on a sleeping half wakes it back up.

-  Esc + Z → sleep the LEFT half
-  Slash + Minus → sleep the RIGHT half

*The two pairs act independently — you can sleep just one half, or both.*
